Hello, my name is Finneas Scott. I'm on my second year of courses at FGCU with a major in math and a minor in physics. I graduated high school from Gulf Coast High School and I've had high grades and GPA above 3.5 in high school and college. My hobbies include playing video games, playing the drum and listening to music. In the video at the bottom of the web page is the Gulf Coast High School marching band where I played the tenors in the drum line and when the video was recorded, I was section leader for the tenors. You can see my profiles that github.com and Codecademy. I thank you for taking the time of looking at my website and have a good day.
